25. My child was very cautious in social settings. She now happily joins new groups, asking to play. She also tells me about the different friends she played with during school. Q 15. Please share any concerns that do not seem to be covered in the questions above:

1. None! We love Busy Bee! Looking forward to our son attempting the toddler class!
2. My only struggle was keeping up on all the emails and making sure I knew the action items. Maybe put action items in bullet points at the top. At least for me, they sometimes got lost in the emails.
3. I know the city of Littleton but the intersection leaving the preschool often feels dangerous. It's not clear that the right lane is turn only & some confusion as parents leave.

Q 19. Do you have more suggestions to improve Busy Bee's program and activities?

1. More pictures sent to parents of students during the day
2. Future field trips after COVID
3. Website enhancement- larger pictures (and fonts sometimes). Would give perspective families a better feel for the school. I think the initial home page could include a large picture of engaged children on the playground to draw people in instead of just typed information. I wish I knew how to do websites and I'd volunteer to help!

Q 20. How could we be a better partner with your family?

1. You already do a wonderful job!
2. Thank you for all you do!
3. You are already amazing! We will miss this supportive and Christ-centered community. Through a very trying and emotional year for our family we took great comfort knowing our son had a safe and nurturing environment to go to. We are so thankful to still be a part of VBS & Awana there. Thank God for You All!!
4. Everything BBP does is top notch we feel so blessed.
5. Would appreciate more regular, personal feedback on my child. Last year I could talk to teachers after class. This year there really wasn't an opportunity to check in/talk at pick up. Would have loved to have an observation day & see child in class. Really missed not seeing the classroom or child in action.
