

Science Exploration Camp

During our science camp, kids have the opportunity to explore a variety of topics. Ranging from botany to physics, chemistry to physiology, geology and even ecology. Our hope is that kids will make strong connections between the world all around them and our powerful and divine Creator.

Philosophy

We believe that God has specially created each person with unique abilities and needs. Our aim is to help each child mature spiritually, socially, emotionally, mentally, and physically recognizing and developing their distinct, God-given abilities and addressing their individual needs. We believe that the parents are the primary teacher of their children. Our intent therefore is to assist parents by reinforcing the truths of God and His love for all people; and teaching the skills and knowledge which will equip their children for success in the years ahead.
