Please check the all-wide newsletter for more information and volunteer opportunities.

Hard to believe we are in March! March is a wonderful Busy Bee month with many important activities.

Upcoming next week is our Trike-A-Thon! This is one of our fundraisers for our school.

In our classroom, a special book bag has begun to go home, one child at a time. This is a special bag of books, and special materials to write their classmate. Stamps are included. Have fun and please return on the next day of school.

We will begin our Solar System Planet in two weeks. Each year the children take home a Styrofoam ball to decorate as their special planet. They will return it to class and share with their friends. We will keep these for our Art Gala in April. Going home Monday will be a bag containing a Styrofoam ball, instructions, and information sheet. They will have 3 full weeks to complete this assignment. Please let me know if you have any questions! This is a real fun project, and it is so neat to see how creative they are! They are all marvelous!
