

Mrs. McGowan's Students - little Ones flourishing in knowledge and God's love

May Objectives:

Insects and Plants

Reading:

Identifying letters "A - Z"

Parents are tremendous role models. If your child sees that you think reading is important and that you enjoy reading, he or she will follow your lead. Remember your child learns best by doing. They love doing things with you.

Family Enrichment Opportunity:

- ☐ Enjoy a free story time at the library together.

Writing and Letter Study:

Letter identification and vocabulary words building for "Y and Z"

Family Enrichment Opportunity:

- ☐ Help your child recognize and remember the days of the week
- ☐ Write the names of each day large on a sheet of paper
- ☐ Read the words with your child
- ☐ Have your child circle all the "Y's"

Math:

Number identification and value counting for "1 - 20"

Family Enrichment Opportunity:

- ☐ When you and your child make a trip to the grocery store
- ☐ Visit the produce section
- ☐ Say the name of any yellow fruits or vegetables that you locate
- ☐ Discuss the difference between a fruit and a vegetable
- ☐ Count the different yellow fruits and vegetables

Science:

Observing the life cycle of the butterfly and ladybug

Understanding that living things need: clean air, water, food, and care

Art:

Recognizing God beauty and nature and using paints and stickers to model
